CURRENT MAJOR CHALLENGES IN OLD DELHI

“

THE INFRASTRUCTURE OF
YESTERDAY CREATES
THE PROBLEMS OF **TODAY**.

Old Delhi houses the biggest wholesale traders of Delhi. Every nook and corner are flooded with traders/shops. Established many years back, before independence, the infrastructure has become old, some of the Buildings have become dangerous too. The amenities are as good as none. Some of the challenges faced by the traders are;

UNPLANNED ROADS

Narrow, congested and poorly maintained roads lead to daily chaos.

CHAOTIC TRAFFIC

Heavy congestion disrupts movement of goods and people.

NO PARKING FACILITY

Lack of dedicated parking creates major inconvenience.

FIRE HAZARDS

Old electrical systems and dense construction pose serious risks.

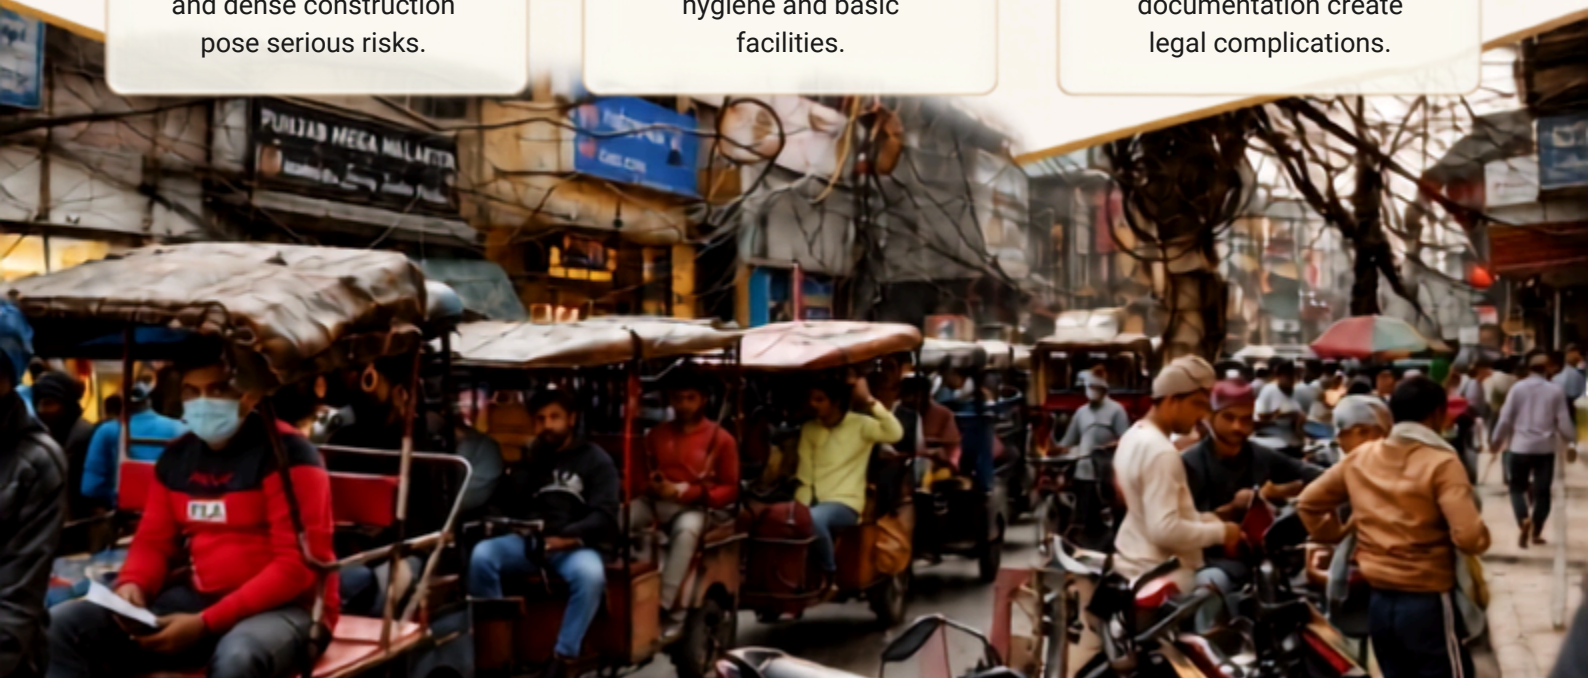

LACK OF AMENITIES

Inadequate toilets, water, hygiene and basic facilities.

IMPROPER TITLE DOCS.

Unclear titles and old documentation create legal complications.
